

**82nd Annual Water Environment Federation
Technical Exhibition and Conference**

Orange County Convention Center
Orlando, Florida, USA

Conference > October 10-14, 2009
Exhibition > October 12-14, 2009

WEFTEC Exhibitor Directory Logo Enhancement Order Form

Increase your company's WEFTEC visibility with logo ads in the exhibitor directories in the WEFTEC Conference Program, the WEFTEC Show Issue of *Water Environment & Technology (WE&T)* magazine, and the Online Exhibitor Directory at www.weftec.org. Attendees use these exhibit directories to identify the companies they plan to see, and your logo will make it easier for them to locate you. When you purchase a logo enhancement for your exhibitor listings in either *WE&T* or the WEFTEC Program, you'll also receive at no additional charge a logo enhancement for your listing in the Online Exhibitor Directory at www.weftec.org.

Deadlines

July 17 for *WE&T* September issue (WEFTEC Show Issue of WEF's monthly magazine)
August 21 for WEFTEC Program

Specifications

Preferred: j-peg with image size at least 2-1/8" X 3/4" at 300dpi (minimum image size 640 pixels X 225 pixels high).
Also will accept EPS files.

Submission Instructions

E-mail logo file to jgrigsby@wef.org. Please include "logo enhancement" and your company name in the subject line. If you purchased a logo ad last year and the logo has not changed, specify "repeat" on the form below.
Please complete this form and fax to 1-703-684-2407

Publications (check one):

- \$350 WEFTEC Conference Program only (plus the Online Exhibitor Directory)
 \$600 Package: WEFTEC Program and September issue of *WE&T* (plus the Online Directory)

All prices are net.

Logo Materials (check one): Repeat from last year's directory; or Will submit new logo file.

Company: _____ Contact Name: _____

Phone: _____ E-mail: _____

Billing Address: _____

Exhibitor List

Bio-Microbics, Inc. | Hall B 20064

8450 Cole Parkway
Shawnee, KS 66227
USA

Bio-Microbics, Inc. manufactures innovative wastewater and stormwater treatment technologies that provide unique solutions for decentralized homes, communities and commercial properties, and stormwater treatment applications.

BioChem Technology, Inc | Hall B 23047

100 Ross Road, Suite 201
King Of Prussia, PA 19406-2110
USA

Manufacturer of ammonia/nitrate analyzers, aeration controllers and automatic controllers of secondary wastewater treatment for optimal nutrient removal, maximum energy savings and process stabilization.

BioMagic Inc. | Hall C 14080

1030 West 17th Street
Costa Mesa, CA 92627-4503
USA

Our products are primarily used to control odor and infrastructure damage caused by hydrogen sulfide gas and other odor-causing compounds.

BioPetro Clean Ltd. | Hall C 19028

5090 Richmond Avenue #148
Houston, TX 77056-7402
USA

The new generation of waste water treatment, Automated Chemostate Treatment (ACT), featuring with major benefits to the industry no sludge and low costs.

BIOREM Technologies Inc. | Hall B 33055

7496 Wellington Road
34 RR #3
Guelph, ON N1H 6H9
Canada

Compact integrated modular BASYS biofilters for H₂S, odors and VOC removal from pump stations and wastewater treatment plants. BIOSORBENS™, North American's lowest maintenance biofilters.

Bioscience, Inc. | Hall B 27095

966 Postal Road
Allentown, PA 18109-9506
USA

An environmental biotechnology firm supplying microbial products and analytical instruments for biological wastewater treatment. Our products are focused on municipal and industrial wastewater applications.

BioSec Enviro Inc. | Hall B 22174

251 Main Street E, Suite 105
Milton, ON L9T 1P1
Canada

Dewatered biosolids storage and conveyance systems.

BioShaft Water Technology | Hall C 16059

184 Technology Drive, Suite 201
Irvine, CA 92618-2434
USA

The exclusive US agent for the Hans Bio-Shaft® System for wastewater treatment, an attached growth process for the biological treatment of domestic waste.

Biothane Corporation | Hall B 27123

2500 S. Broadway, Dwr. 5
Camden, NJ 08104-2409
USA

Biothane Corporation is a worldwide leading supplier of biological technologies for the treatment of high strength wastewaters. We specialize in high rate anaerobic processes.

Bioway America, Inc. | Hall B 30175

110 Centre Boulevard
Marlton, NJ 08053
USA

Bioway develops biological solutions for treatment of odorous air. We offer superior products that incorporate advanced biological and electrical control technologies resulting in advanced bioreactors.

BJM Pumps | Hall B 32082

123 Spencer Plain Road
Old Saybrook, CT 06475-4051
USA

Submersible pumps from fractional HP up to 30HP, 6" discharge. Slide rail systems available. Applications include dewatering, sewage, sludge, trash and corrosive environments.

BKP Berolina Polyester GmbH & Co. KG | Hall B 26200

AM Zeppelinpark 22
Berlin 13591
Germany

Blacoh Fluid Control, Inc. | Hall B 31059

601 Columbia Avenue, Suite D
Riverside, CA 92507-2149
USA

SENTRY pulsation dampers take the shock out of fluid flow. SENTRY ensures smooth and continuous flows, protects pipes and sensitive equipment from vibration and fatigue.

Blue Angel Pumps | Hall B 30218

101 Production Drive
Harrison, OH 45030
USA

Blue Ribbon Corp. | Hall B 32090

1940 Howell Branch Road
Winter Park, FL 32792-1013
USA

Forget SCADA for lift stations. Blue Ribbon makes a revolutionary device to monitor and control lift stations over the internet. It senses level, controls pumps, sends data and alarms.

Blue Water Technologies, Inc. | Hall B 30094

10450 Airport Drive
Hayden, ID 83835-9742
USA

Blue Water Technologies supplies wastewater filtration systems. These include the Salsnes for influent primary and pretreatment, Centraflo gravity sand, Blue PRO and Blue NITE filters for nutrient removal.

Blue-White Industries | Hall B 28186

5300 Business Drive
Huntington Beach, CA 92649
USA

Blue-White Industries manufactures diaphragm type and peristaltic type metering injectors; variable area flowmeters; and electronic meters (flow sensors, rate/totalizer meters, batch/process controllers).
See our ad on page 152.

Boerger, LLC | Hall B 24143

P.O. Box 3949
Minneapolis, MN 55403-0949
USA

Boerger Rotary Lobe Pumps in MIP-Design (Maintenance In Place). Boerger Macerating Technology: Multicrusher (Twin Shaft Grinder) and Multichopper (Single Shaft Grinder).

Bohn Biofilter | Hall B 31005

P.O. Box 44235
Tucson, AZ 85733-4235
USA

Odor and Air Emissions Control. Soil biofilters-high efficiency, long filter life, and dependable operation. Performance guarantees for 99% H₂S removal and all nuisance odors.

Bonfiglioli USA | Hall C 14041

3404 Holly Road
Virginia Beach, VA 23451
USA

Bonfiglioli is a worldwide manufacturer of power transmission equipment, specializing in Planetary, Worm and Helical gearboxes for the water treatment industry.
See our ad on page 155.

Bord na Mona Environmental Products U.S. Inc. | Hall B 23208

4106 Bernau Avenue
Greensboro, NC 27407-4252
USA

Bord na Mona provide onsite and decentralized wastewater solutions including peat fibre biofilters, moving bed and aerated filter activated sludge package plants and membrane bioreactors.
See our ad on page 50.

Brentwood Industries | Hall B 22015

P.O. Box 605
Reading, PA 19603-0605
USA

Brentwood supplies filter systems incorporating AccuPac media and media supports, AccuFAS integrated fixed film/activated sludge (IFAS), Tube and Plate Settler systems for efficient clarification.
