Offset Your Travel to WEFTEC 2026

[Dashboard](#)

Please join WEF in supporting climate-smart water innovation. This year, your offset contribution will support the Yahara WINS Watershed Carbon Project, a nationally recognized partnership in Madison, Wisconsin that improves water quality while avoiding greenhouse gas emissions.

Instead of building a costly, energy-intensive treatment upgrade, the Madison Metropolitan Sewerage District worked with farmers, local governments, and conservation groups to restore wetlands, protect streambanks, and reduce runoff into the Yahara River watershed. These nature-based actions avoid thousands of tons of carbon emissions from electricity and chemical use.

A carbon offset icon will be printed on badges to recognize registrants who have offset their attendance. Thank you for helping make WEFTEC 2026 both climate-responsible and water-forward!

* indicates required fields.

* Yes, I would like to contribute towards the purchase of carbon offsets as part of my registration.

- \$10.00 (approximate amount to offset ½ of the carbon emissions from my attendance)
- \$20.00 (approximate amount to offset carbon emissions from my attendance)
- \$40.00 (I want my attendance at WEFTEC to be carbon-positive)
- No, I do not want to offset my travel to WEFTEC.

Thank you for supporting this important sustainability initiative.
