

# ADS® Introduces NEW Web-based Software for Wastewater Collection System Management

2/6/17 – **FlowView**® Provides Critical Collection System Insight That is Always at Your Fingertips.

**Huntsville, AL - ADS LLC**®, the leader in full-service sewer flow, level, and rainfall monitoring and data management, today announces the release of **FlowView**. FlowView is a web application that puts flow monitor, level monitor, and rainfall monitor data at your fingertips to support management, engineering, and operational decisions within your wastewater collection system. FlowView connects clients to an ADS® monitoring network, delivering near real-time operational intelligence on the status of the wastewater collection system. It offers dynamic analytical functions for fueling discoveries that will lead to enhanced management of the sewer collection system. FlowView performs data retrieval, storage, alarm management, and information presentation functions.

FlowView enables the user to identify and resolve emerging concerns before problems arise and provides easy-to-use dashboards and graphical tools to status system performance and track emerging threats.

For more information on FlowView, view the overview video at [www.adsenv.com/videos](http://www.adsenv.com/videos) or visit [www.adsenv.com/flowview](http://www.adsenv.com/flowview).

## About ADS LLC

ADS LLC is a leading technology and service provider and a reliable source of knowledge to the global wastewater collection system industry. Monitors manufactured, installed, and maintained by ADS measure over 5 billion gallons of flow daily across the globe. ADS delivers value to its customers by providing industry-leading solutions for flow and level monitoring, data analysis, reporting, and field services. These customers rely on **Underground Intelligence**® from ADS to manage planning and rehabilitation, satellite community billing, regulatory compliance, O&M, and model calibration. ADS is an *IDEX Fluid & Metering Business*.

Contact ADS for more information about wastewater flow monitoring, sewer level monitoring, and flow data management. Call 800.633.7246 or visit [www.adsenv.com](http://www.adsenv.com).
