**As course sponsor, you are required to provide a certificate of completion or other documentation to operators completing your training course.** Individual operators are responsible for tracking completion of approved TUs and providing documentation of such completion at the time certification renewal is requested. The documentation of completion you provide should include the following information:

An example of a form of certificate that can be used to document course completion is on the OCPO web site, [www.ocpoweb.com](http://www.ocpoweb.com). You are not required to use this specific form; rather it is an example that provides the information needed by the Board.

**NOTE: All courses submitted and approved must be resubmitted for approval in subsequent years. Course approval is on a YEARLY basis only.
