Email: wwopcert@utah.gov

Approval Details:

The Utah Wastewater Operator Certification Council confirmed that it will continue to give credit for wastewater continuing education for attending WEFTEC. The amount of credit the individual will receive will depend on the number of credits shown on the certificate issued by WEF to each individual. Attendees are responsible for submitting documentation to the state directly.

Note: Utah's wastewater program will give credit for "wastewater-related" training (CEUs and PDHs as they no longer differentiate between Conference and Non-conference training) for actual training time. However, no credit will be given for Exhibition attendance. If a tour is wastewater-related, credit is given for the actual tour of the facility/system, but not for travel time. Utah will only give partial credit for "stormwater" training.
