

# SDG 6 Theater

## Drinking Water Pavilion and SDG 6 Theater | Booth 761

The Water Environment Federation (WEF), a UN-Water Partner, supports the U.N. Sustainable Development Goals (SDGs) by actively engaging and collaborating with its members and strategic partners. WEF's commitment to advancing the SDG's, especially SDG 6 (Clean Water and Sanitation), is visible through the daily work carried out by the water industry community, such as the operators who are at the front lines in the protection of public health.

Welcome to the newly launched SDG 6 theater. We have an exciting line-up of sessions, ranging from the robust challenges brewers deal with on a daily basis, to how cross-cultural experiences shape female engineers.
